Xishuangbanna Tropical Flowers and Plants Garden

★ 国家AAAAA级景区 ★

全国科普教育基地

本企业已通过ISO9001、ISO14001两个管理体系认证

Brief Introduction of Xishuangbanna Tropical Flowers and Plants Garden

The Xishuangbanna Tropical Flowers and Plants Garden is located in Yunnan Institute of Tropical Crops, Jinghong city. It is an important scenic spot in Xishuangbanna, which covers 80 hectares of land. The garden was appraised as an "AAA" Scenic Spot by the National Tourism Bureau in 2001, and has gained National "AAAA" Scenic Spot in 2005. It passed authentication of the two management systems ISO9001 and ISO 14001 in 2003. It is a theme botanical garden with multifunctions such as plant research, science popularization, sightseeing and vacation, has preserved more than 100 species of tropical flowers including 300 varieties and about 600 species of tropical economic plants including 7000 germplasms.

Many communist party and national leaders including Zhou Enlai, Wang Zheng, Chen Yi, Hu Yaobang, Jiang Zeming, Li Peng, Li Ruihuan, Hu Jintao, Wu Bangguo etc., as well as horticulturists from France, Canada, Japan, Thailand and so on, have inspected the garden. They all highly commended the garden.

Dear friends, roaming around the Garden, you can not only enjoy the beautiful tropical sceneries as much as you like, but also taste the untrammelled and harmonious existence of the man and the nature.
